PROFILE SUMMARY

Software Developer & MCA Candidate (July 2026) engineering web experiences where full-stack precision meets AI-driven development. Proven track record in crafting high-fidelity React 19/Next.js frontends, scalable Node.js architectures, and automated digital ecosystems. Driven by a relentless curiosity to master emerging tech, prompt modern AI tools, and continuously upgrade my personal algorithm to build future-proof software.

EXPERIENCE & INTERNSHIP

Frontend Developer Intern

Jan 2026 — May 2026

Codeware IT Pvt. Ltd.

- Developed a responsive e-commerce platform using React.js and Tailwind CSS, optimizing performance for cross-browser compatibility.
- Integrated RESTful APIs to ensure high-fidelity UI/UX synchronization and smooth data flow.

Software Developer Intern

June 2025 — July 2025

Uttarakhand Media Ventures Pvt. Ltd.

- Enhanced user experience for a live news portal by developing dynamic UI components and optimizing real-time data flow.
- Utilized Git for version control and implemented modern development practices for scalability.

KEY PROJECTS

MandiSync | Crop Arbitrage Dashboard for Indian Mandis

- Built a full-stack web application comparing live APMC (Agmarknet) prices across Indian mandis and estimating net profit after transport and fees.
- Implemented arbitrage ranking, map-based corridor visualization, and lead capture using Next.js, TypeScript, FastAPI, PostgreSQL/PostGIS, and Leaflet.

ArtByAnjali | Full-Stack Artistic Portfolio

- Solved the performance-quality paradox in high-resolution art galleries by developing a custom MERN-based optimization engine.
- Leveraged ImageKit cloud processing and immersive GSAP animations to deliver a premium, lag-free exhibition experience with a secure admin dashboard.

College Event Management Web App

- Engineered a centralized event automation ecosystem to resolve fragmented campus registrations.
- Implemented a high-performance hub that reduced administrative bottlenecks and enabled seamless real-time institutional coordination using React, Node.js, Express, and MongoDB.

Luxury Ecommerce | High-End Retail Platform

- Solved the performance-scalability trade-off in premium digital retail by engineering a high-fidelity React 19 ecosystem.
- Implemented a bespoke Context-driven state engine and optimized useMemo filtering logic to ensure zero-latency discovery, delivering an immersive dark-themed experience with Framer Motion animations.
